PROFESSIONAL SUMMARY

Versatile Software Developer and Digital Marketing Specialist with over 10 years of experience building scalable web applications, implementing CI/CD pipelines, and driving data-informed marketing strategies. Combines technical expertise in full-stack development with strong analytical skills in business intelligence, SEO, and user behavior analysis. Proven track record of increasing online engagement, optimizing user experience, and delivering automation solutions. Currently expanding expertise into algorithmic trading through Expert Advisor (EA) development using MQL5 and Python.

TECHNICAL SKILLS

Category	Technologies
Programming Languages	PHP, Python, JavaScript, C++, Java, SQL, C, Kotlin, MQL5
Frameworks & Libraries	Laravel, Django, Node.js, React.js, Angular, React Native, SASS
Databases	MySQL, PostgreSQL, SQLite
DevOps & Tools	Git, GitHub, CI/CD Pipelines, Docker (basic), npm package publishing
Data Analysis & EAs	Python (Pandas, NumPy, Matplotlib, BeautifulSoup, Selenium)
MQL5 (EA development)	Excel (Pivot Tables, Power Query, VBA), Google Analytics, Web Scraping
Digital Marketing	SEO/SEM, Google Analytics, Hootsuite, Social Media Marketing, Telegram Bot Development
Networking	CCNA (network monitoring, data flow optimization)

WORK EXPERIENCE

June 2016 – Present
Web Developer & Digital Marketing Specialist at Print Shop (printshopeld.com)

- Web Development & E-commerce: Developed and maintained multiple e-commerce and static websites, increasing online engagement and visibility.
- Data-Driven Marketing: Led digital marketing campaigns using Google Analytics and Hootsuite, achieving growth in customer acquisition and website traffic.
- UI/UX Optimization: Improved user interface and experience through behavioral analytics, boosting customer satisfaction by 15% and retention by 20%.
- CI/CD Implementation: Implemented CI/CD pipelines, reducing deployment times by 40%.

- Telegram Marketing Bot: Designed and developed a Telegram bot to automate customer interactions, track engagement metrics (open rates, CTR, user feedback), and refine targeting strategies, resulting in 20% improvement in campaign effectiveness.
- Data Dashboarding: Created automated Excel dashboards for sales and marketing analysis, enabling faster strategic decision-making.
- Web Data Analysis: Collected and analyzed web data using Python (BeautifulSoup, Selenium) and Google Analytics to identify trends and optimize performance.

October 2024 – Present
Systems Programmer & DevOps for JK Enterprises (jke-tech.com)

- Web Development: Developed and maintained company and static websites, increasing online engagement by 20%.
- CI/CD Pipeline Management: Implemented CI/CD pipelines, reducing deployment times by 60%.
- Automation & Scripting: Built and published BakTrack, an npm package for local versioned backups, improving backup redundancy, speed, and reliability.

June 2020 – June 2021
Marketing Assistant at Amash Tender Touch Supplies Limited

- Integrated digital marketing platforms using tracking pixels and analytics, enhancing customer engagement by 35%.
- Utilized market and sales data to inform product activation strategies, contributing to 10% increase in sales.
- Developed customer retention strategies, achieving 20% repeat business rate.

SKILL HIGHLIGHT: ALGORITHMIC TRADING (EA DEVELOPMENT)

- MQL5: Developing Expert Advisors (EAs) for automated trading on MetaTrader 5, including signal generation, risk management, and backtesting optimization.
- Python for Finance: Using Python libraries (Pandas, NumPy) for historical data analysis, strategy backtesting, and integrating with trading APIs.
- Goal: Combine software development and data analysis skills to build robust, data-driven automated trading systems.

CERTIFICATIONS & ACHIEVEMENTS

Certification	**Details**
CCNA Certification	Strathmore University – Network data monitoring, analysis, and optimization
Microsoft Packages Certification	Graphins Computer College – Advanced Excel (Pivot Tables, Power Query, VBA)
Meta Boost Leaders' Network	Active Member (2022–2023) – Digital marketing strategy across Africa
Strathmore SBL Competition Winner	2023 – Recognized for data-driven business and technology integration strategies

EDUCATION

Degree	Institution	Year
Bachelor in Business and Information Technology (Specialization: Business Intelligence)	Strathmore University	2019 – 2024
Kenya Certificate of Secondary Education (K.C.S.E)	Booker Academy High School	2011 – 2015

LANGUAGES

- English (Professional working proficiency)
- Kiswahili (Native/Bilingual proficiency)

KEY STRENGTHS

- Full-stack web development (PHP, Laravel, Django, React, Node.js)
- Data analytics & visualization (Python, Excel, SQL, Google Analytics)
- Digital marketing & SEO (campaign execution, performance tracking)
- CI/CD & DevOps automation
- EA development (MQL5 & Python) – automated trading systems
- Network data monitoring (CCNA certified)
